

**European Equine Upper Airways  
Surgical Workshop - 3<sup>rd</sup> Edition**  
2013 June 14-15 | Paris, France

## **Tie back, Tie forward and Laser surgery**

Lectures and practice

**Equine Clinic of Grosbois,  
Boissy St Léger, France**

## Sponsors

Grosbois Equine Clinic is pleased to invite you to the third edition of the European Equine Upper Airway Surgery Workshop!

Join us and benefit from the tips and tricks of three renowned experts in equine upper airway surgery: KJ Boening (Germany), Norman Ducharme (USA) and Fabrice Rossignol (France).

Grosbois Equine Clinic is located in the "Domaine de Grosbois", only 25min away from Paris city center. This 800 acre property houses the national training center for 1600 racing trotters and a two century old mansion.

State of the art lectures given in this unique atmosphere will focus on advanced and new surgical treatments for DDSP, RLN, aryepiglottic fold collapse, epiglottic entrapment and vocal cord collapse.

Our goal is to go from «how to» to «can do». The two-day-schedule will therefore mainly be dedicated to practical techniques such as tie back, tie forward, ventriculo-cordectomy, arytenoidectomy on isolated heads and laser surgery on isolated larynges placed in a very realistic device.

Our long standing partners OPTOMED and ARTHREX will provide you with state of the art equipment for transendoscopic laser surgery, new suture material and also metallic implants.

Your experience should be highly profitable and enjoyable and social activities will not be forgotten. Gastronomic dinner on Friday night, discover Paris on a warm spring evening on Saturday and on Sunday attend the Prix de Diane Longine at Chantilly's racetrack, the most glamorous French horse racing event of the year!

**Here's what some who attended the 2012 European Equine Upper Airways surgical workshop had to say...**

*"Thank you for this excellent performance! Really great!"*

*"Very nice and interesting up level course!"*

*"Great course! It is absolutely worth the money!"*
