# 19th Annual Scientific Meeting

European College of Veterinary Surgeons

---

Pre Congress Seminar

**Hybrid external fixation for small animal**

Scandic Marina Congress Center, Helsinki, Finland

---

Thursday, July 1, 2010

07.00 – 15.15

---

---

**Hybrid external fixation in small animals**

---

We would like to thank AdMaiores, Italy for their financial and logistic support and in making this workshop possible.

Participants 12 participants

**Course location** **Scanic Marina Congress Center**

**Registration** Thursday, July 1st 06.45 – 07.00 h – Scandic Marina Congress Center

	before May 30	after May 30
Fee	€ 300.– / CHF 440.–	€ 400.– / CHF 585.–

Included are:

- coffee break
- lunch
- course certificate

---

**Hybrid external fixation in small animals**

---

**Programme**

07.00–07.15	Instruments for use in small animals
07.15–07.40	Old and new concepts in linear (LEF) and circular external fixation (CEF) for fracture stabilization
07.40–08.00	Use of the fixator for fracture reduction
08.00–08.30	Use of the hybrid external fixation (HEF) for radius-ulna and tibia stabilization
08.30–09.00	Use of HEF for humerus and femoral fractures

**09.00–09.20 Coffee break**

09.20–09.50	<b>Practical I:</b> Preassembling of the frame and basic techniques for fracture reduction
09.50–11.00	<b>Practical II:</b> Frame application to the radius-ulna
11.00–12.00	<b>Practical III:</b> Frame application to the tibia

**12.00–12.30 Lunch break**

12.30–14.30	<b>Practical IV:</b> Frame application to the humerus
-------------	-------------------------------------------------------

14.30–14.50	New hybrid configurations and new materials
14.50–15.00	Destabilization and dynamization
15.00–15.15	Course debriefing

Faculty and instructor Gian Luca Rovesti Dr.med.vet, ECVS, Cavriago, Italy
