

Posters - Orthopaedic

Clinical and Arthrocentesis Results Of TTA-Rapid in Dogs with Cranial Cruciate Ligament Rupture

M. Arican

Evaluation of proximal tibial metaphyseal fractures in immature dogs

R. Ben-Amotz

Outcomes of partial osteotomy for tibial tuberosity lateralisation in dogs with medial patella luxation: a retrospective review of 29 dogs.

ES Bishop

Minimally invasive repair of a comminuted fracture of the central tarsal bone and second tarsal bone fracture with tarsal luxation in a Whippet

C. Bismuth

Canine Appendicular Osteosarcoma Treated with Stereotactic Radiotherapy and Carboplatin – a Retrospective Study

SE Boston

Limb Shortening Limb Salvage for Canine Appendicular Osteosarcoma of the Distal Radius: Case Report and Description of Novel Surgical Technique

SE Boston

Ventral stabilisation of acute traumatic atlanto-occipital unilateral luxation in a dog

RG Carbonell

Absorbable antirotational suture as the sole treatment of a lateral patellar luxation in a puppy

A. Cermolacce

A Prospective Study of the Clinical Characteristics of Cranial Cruciate Ligament Injury in Dogs: Results From 150 Consecutive Cases and Introduction of a Classification System

GN Clark

Fascia lata and pedicle hamstring graft for reconstruction of a patellar ligament in a dog (one year follow up)

F. Collard

Surgical treatment and outcome of spina bifida in four dogs.

S. Del Magno

Non neurogenic brachial plexus neoplasia in two dogs

G. Gradner

Posters - Soft Tissue

Use of Negative Pressure Wound Therapy to Treat an Ischaemic Injury of the Distal Limb.

EJ Best

Antibacterial effects of laser therapy and its efficacy in reducing surgical site infections

DE Billing

Congenital cranial ventral abdominal hernia, peritoneopericardial diaphragmatic hernia and sternal clef in a 4 years old multiparous pregnant queen

C. Bismuth

Modified preputial urethrostomy without penile amputation as a salvage procedure in one dogs

O. Broux

Canine pancreatic lipase in dogs with gastric dilatation-volvulus and its association with outcome

V. Cola

Thoracic pouch flap associated with forelimb fold flap to manage brachial and antebrachial skin necrosis

F. Collard

Pericardial pacht for unresectable cardiac tumors in three dogs

F. Collivignarelli

Prospective evaluation of correlation between pre- and postoperative clinical measures in Brachycephalic Airway Obstruction Syndrome (BAOS) surgically treated by Folded Flap Palatoplasty (FFPP).

JJ Csaszar

Innovative approach and usability of an implantable venous access system in the canine portal vein: technique, results, and complications in 3 dogs.

KS de Nies

Erosive Arthritis of the Temporomandibular Joint secondary to Foreign Body in a Dog

A. Decambren

Posters - Orthopaedic (cont'd)

Effects of intra-articular botulinum toxin A on joint cartilage and synovium in the canine stifle joint

HM Heikkilä

Short to Mid-term Outcome of Cranial Closing Wedge Osteotomies, in 43 cranial cruciate ligament-deficient stifles of small to medium dogs (≤ 20 kg), using Synthes® Locking TPLO Plates

B. Kaye

Reconstruction of massive, long bone segmental bone defects, using the induced membrane technique in three dogs

M. Manassero

Surgical treatment of atlantoaxial instability: Does evolution of the technique affect overall outcome and complication rates? - A retrospective study of 29 cases (1994-2015)

M. Manou

Investigation into lameness attributed to loose TTA cages and composition analysis of TTA cages

W. Mccartney

Treatment of Cervical Spondylopathy using a Slanted Slot and Laboratory analysis of thirty rabbit cervical vertebrae

W. Mccartney

Surgical treatment of thoracic kyphosis by realignment-traction-fusion in 14 dogs

PHM Moissonnier

Treatment of a paediatric distal femoral malunion deformity

GS Pavarotti

Evaluation of the effect of a single intra-articular injection of allogenic neonatal mesenchymal stem cells for the treatment of osteoarthritis in dogs

P. Pillard

Body weight distribution of dogs with one forelimb amputation

SC Rahal

Radiographic landmarks of the sheep cranial cruciate ligament: origin and insertion

J. Trnka

Posters - Soft Tissue (cont'd)

Gross and histopathological features at the site of artificial urethral sphincter placement in a female dog

RS Doyle

Extended palatoplasty as surgical treatment for nasopharyngeal stenosis in cats: 5 cases

A. Dunié-Mérigot

Treatment of urethral sphincter mechanism incompetence associated with a genitourinary dysplasia in a cat with a percutaneously controlled urethral hydraulic occluder and urethral pressure profilometry control

A. Fournet

A comparison of muscular workload during simulated open and laparoscopic surgical techniques in veterinary students: a pilot study

J. Kilkenny

Lip to nose: A new technique for planum reconstruction in a cat

F. Massari

Evaluation of perioperative complications in adrenal surgery: 115 cases

S. Nicoli

Predictive value of pre and postoperative urethral pressure profiles for long-term continence in dogs with ectopic ureters.

SN Noël

Autologous pericardial patch to repair a pulmonary laceration in a cat with pyothorax.

P. Pérez López

Diagnosis of clitoral adenocarcinoma by computerized tomography in a dog presented with hypercalcemia

P. Picavet

Congenital urethral stricture in a young cat

D. Sarran

Vocal fold granulomas in 6 brachycephalic dogs: macroscopical and histological features

D. Sarran

Posters - Orthopedic (cont'd)

Needle arthroscopy (NA) for stifle joint exploration in dogs. A cadaveric study.

V. Viateau

Percutaneous tibial physeal fracture repair: technique and 18 cases

DJF von Pfeil

Morphometric assessment of hip conformation

F. Weekers

Posters - Soft Tissue (cont'd)

Video-assisted thoracic surgery for the management of pyothorax in dogs: 14 cases

J. Scott

Surgical aortic thrombectomy in a dog.

RK Shimizu

Platelet-rich plasma to treat experimentally induced skin wounds in animals: a systematic review and meta-analysis

AM Tambella

Klox biophotonic system, a promising innovative approach to canine chronic otitis externa: Preliminary report of a randomized controlled clinical trial

AM Tambella
