Comparative Imaging of the distal limb

Wednesday, 12 July 2017, 08:00 - 17:30

Course type: Lecture / dry lab

Description: This one day course will consist of lectures and dry-labs where the delegates will work through imaging cases, with the opportunity to discuss with instructors during and at the end of each lab.

Instructors will provide cases for the dry lab – these can be a single modality or multiple modalities, but are to include radiography, ultrasonography, CT and MRI.

Delegates will work in pairs in the dry lab. One imaging station with DICOM viewing software will be provided per every 2 delegates.

Timing:

08:00-08:30	Registration, welcome, coffee
08:30-09:00	Radiographic examination of the foot and limitations compared to MRI
09:00-09:30	Principles of MRI and image interpretation
09:30-10:00	Standing low field vs. high field MRI under GA
10:00-10:30	Coffee break
10:30-12:15	Dry-lab 1: xray and MRI cases
12:15-13:15	Lunch
13:15-13:45	Ultrasound of the foot and pastern
13:45-14:15	CT and contrast CT of the foot
14:15-14:45	Tour of the Edinburgh imaging facilities
14:45-15:00	Coffee break
15:00-16:30	Dry-lab 2: CT and ultrasound cases + further MRI cases
16:30-17:30	Discussion
17:30	End of course
