

AO VET Seminar— Complex feline fractures and joint disorders

July 7, 2022
09:00–13:30

Porto,
Portugal

REGISTER NOW!

Seminar description

This highly interactive case-based seminar will be divided into in 4 blocks

Block 1: Complex or unusual Feline elbow problems,

Block 2: Challenging Feline Polytrauma cases,

Block 3: Decision making in pelvic fractures

Block 4: Clear examples when cats are not small dogs where several interactive clinical case discussions will be used to illustrate different aspects and particularities encountered when dealing with complex orthopaedic issues in the feline patient. In addition, general concepts such as diagnosis, case assessment and appropriate indications will be addressed.

Target participants

The target is surgeons comfortable taking over decision-making responsibility for the treatment of complex injuries (ideally those that have taken an Advanced AO VET course already).

Course fee

EUR 160.

To register please click on the Congress website:

https://www.ecvs.org/services/asm_registration.php

and follow the instructions.

Goal of the seminar

The AO VET advanced feline orthopaedics seminar will address the principles, techniques, and concepts related to the management of an array of complex feline fractures and joint disorders and the clinical problems that may arise.

Very interactive discussions with real cases and possibility to bring own cases to discuss.
