Reproductive Surgery Lab

Common surgical techniques for the equine male and female genital tract

Thursday, 7 July 2022, 08:00 - 13:30

Species: Large Animal

Course type: Lectures and practical sessions

Description: After a brief theoretical introduction to the most common surgical conditions of the mare, stallion or gelding, the course will focus on a hands-on session, where participants will have the chance to perform surgical procedures on cadaver specimen. Practical part will be in groups of 2 participants per specimen.

Schedule:

08:30 - 08:45	Welcome and introduction of lecturers
08:45 - 09:45	Most common surgical conditions of the stallion and gelding
09:45 - 10:45	Most common surgical conditions of the mare
10:45 - 11:15	Coffee break
	Practical part: performing surgical procedures on cadaver specimen (Bolz technique, Adam sprocedure (complete reefing), anastomosis of CCP to the CSP (treatment for priapism), amputation of urethral process)

Lecturers: Rolf Embertson, DVM, ACVS
Jim Schumacher, DVM MS ACVS
Dwayne Rodgeron

Number of participants: max. 24

Participation fee (€) until 12 May 2022:
Diplomates: € 550, Residents: € 410, non-members: € 690

from 13 May 2022:
Diplomates: € 650, Residents: € 490, non-members: € 810
