

AO VET – ECVS Pre-congress Seminar

Arthrodesis in Horses: Challenges and Solutions

July 6th, 2023

Krakow, Poland

Chair: Christoph Lischer, Freie Universität Berlin, Germany

Faculty: Jeffrey Watkins, Texas A&M, USA

Michelle Jackson, University of Zürich, Switzerland

Fabrice Rossignol, Equine Clinic Grossbois, France

Description:

The goal of this course is to have interactive case discussions of common arthrodesis techniques in horses. Prognosis and recognition of specific challenges are paramount to come up with ad hoc solutions to treat the patient. Another crucial point is being able to manage complications, along with understanding the correct rehabilitation techniques for the best outcome.

Program

09:00–09:30	Registration of participants	
09:30–10:15	Pastern arthrodesis	M Jackson, C Lischer
