I-Loc® IM Fixator Workshop Interlocking Nailing Workshop – I-Loc Intramedullary Fixator

Wed, 5 July - Thu, 6 July 2023, 1.5 days

Sponsored by BioMedtrix - A Mavora Brand

Species: Small Animal

Course type: Dry & wet lab

Content: This one and a half day workshop featuring the I-Loc® 6-7-8 System will cover principles of interlocking nails focusing specifically on the femur and tibia as these bones are the most common indications for nail fixation.

Objectives: Featuring the I-Loc 6-7-8 system, this one and one half day workshop will cover principles of interlocking nailing in a variety of long bone fracture configurations for standard, and large breed dogs. The evolution of interlocking nail designs will be addressed, with an emphasis on the concept of angle-stable centromedullary fixation.

Detailed surgical techniques for fracture fixation using the I-Loc system will be demonstrated, followed by a dry and wet-laboratory with extensive hands-on fracture reduction and fixation. A report of clinical results and expectations will conclude the laboratory.

Instructors Loïc Dejardin, DVM, MS, DACVS, DECVS
Karen Perry, DECVS MSc Vet Ed, CertSAS, MRCVS
Maria Podsiedlik, DVM, MSc, DACVS-SA

Number of participants: min. 8, max. 15

Participation fee (€) until 22 June 2023:
Diplomates and non members € 1'000, ECVS Residents € 750

from 23 June 2023
Diplomates and non members € 1'200, ECVS Residents € 900

I-Loc® IM Fixator Workshop Interlocking Nailing Workshop – I-Loc Intramedullary Fixator

Wed, 5 July - Thu, 6 July 2023, 1.5 days

Sponsored by BioMedtrix - A Mavora Brand

Schedule:

Day 1: Wednesday, 5 July

07:45 - 07:55	Registration	faculty
08:00 - 08:10	Introduction & welcome	Karen Perry
08:10 - 08:25	Product Research and Development	Loïc Déjardin
08:25 - 08:40	Surgical Technique - Animation	Maria Podsiedlik
08:40 - 09:30	Dry lab: Sawbones, Femoral Fracture	all faculty
09:30 - 09:45	Break	
09:45 - 10:30	Clinical Use of I-Loc Nails	Loïc Déjardin
10:30 - 11:45	Corrective Osteotomies – Clinical Application Femoral Retroversion with DFV & MPL	Loïc Déjardin, all faculty
11:45 - 12:30	Lunch	
12:30 - 12:45	Change into surgical scrubs	
12:45 - 13:15	Canine Cadaver Demo Approach Templating (VPop or OVE), Femoral Fracture (Surgical (ORIF) Approaches)	Karen Perry, Maria Podsiedlik
13:15 - 14:45	Canine cadaver lab, Femur Fracture - right side	all faculty
14:45 - 15:00	Break	
15:00 - 15:30	Tibial Nailing Lab	Loïc Déjardin
	Rationale for Tibial Nail Bending, VPop or OVE planning, Dry Lab Demo	
15:30 - 17:00	Canine cadaver lab
