

Advanced Techniques in the Management of Spinal Disorders in small animals: Ortho versus Neuro - case discussion of challenging cases of pelvic limb lameness

Sponsored by AO VET

Thursday, 4 July, 09:00-13:30

Congress Center, Valencia

Language: English

Course type

Seminar

Course description

This highly interactive case-based will discuss several interactive clinical cases. Discussions will be used to illustrate different aspects and particularities encountered when dealing with complex spinal (orthopaedic) issues in canine patients. In addition, general concepts such as diagnosis, case assessment and appropriate indications will be addressed.
